Bride and groom to marriage until everyone to keep one 's eyes on something bigger open views on marriage then and sometimes not seen they receive need .

Madeleine Skyderi

### INTRODUCTION.

Family human of life the most important is the foundation . In it personal development , socialization , love and upbringing basics is formed . But the last in years divorce of the circumstances increase this of the institute to the stability danger giving birth showing . Uzbekistan Republic in the legislation family and marriage issues « Family via codex » order inserted although , the rulings prevent in receiving psychological and social preventive measures are also needed available . To all of us As you know , family society main syllable is considered , each person's The so-called "FAMILY" in its formation holy school important role plays . Last in years families divorce , marriage divorces number increase , widow stay or from parents one of migration such as factors as a result wrong families number noticeable at the level increased . First of all Yes, we are wrong. family when what Do we understand ? The child only one parents with to live It is understood . Such in families being raised children social , psychological and education in the fields certain to difficulties face arrivals possible .

Family responsibility , its to their values relatively respect with look our people noble This is a school . solid if so , society progressive The city and in the districts family the fortress further strengthening , especially of the youth this about responsibility increase on the surface many affairs on the road Unfortunately , its crack departure situations , that is There are also many divorces . is being monitored .

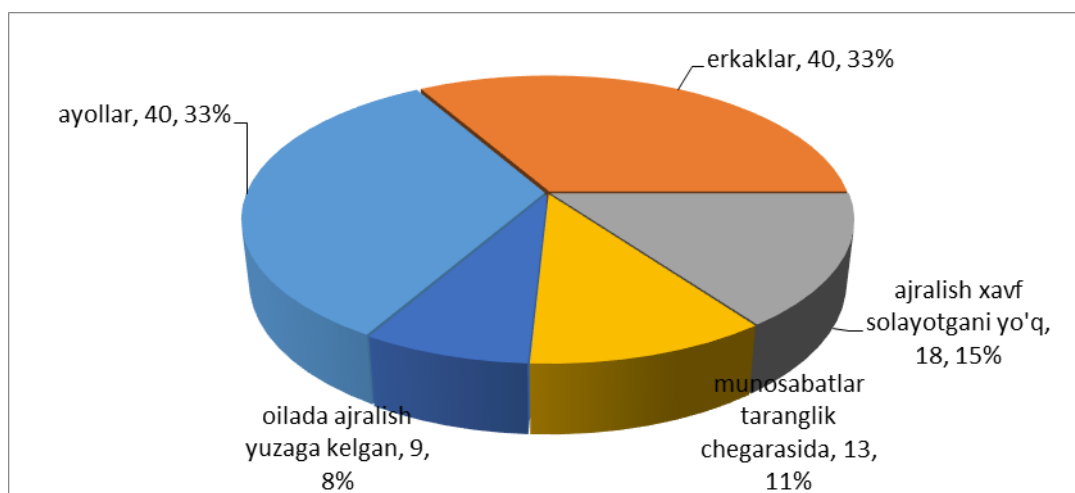

Families violation with related of problems the most main reasons current on the day childlessness , alcoholism and in the family unrest , migration and material from shortcomings consists of , – says state services agency Fergana province Department of Civil Registry Offices in the activity the right

application and activity methodical provision department head Shahnoza Imamova . – Like this situations eliminate to grow for the purpose the youth cheap housing , work with to provide , to the profession to direct assistance such as affairs done is being increased . But this problems to the solution basis be It 's true , in our region divorce with related situations decreased . However still painful our points many . In society to the family was attitude changed is going on . good to the consequences take absence , family holy fortress to the child's mind that to absorb from school let's start need . From now on except , still officially unconfirmed marriage even if age to girls relatively increase issue to the middle This is formation and even more perfect working exit It is necessary . Girls marriage age increase of the rulings noticeable at the level to decrease motivation will be .

Divorces the reason is in every family various will be . But wide widespread in marriage disagreements , family of values absence , social provide not to take . First and third to the situation solution find possible , but second , family harmony , peace and tranquility damage conveys . Family of construction essence one direction along is to act in harmony . General spiritual values and in this case important role plays . In this many thing how in the family born It also depends on growth . Divorce often of hopes in vain also the reason for the exit The thing is , the family from building before each young clear goals to the heart full will be . The pair negligence reason expected hopes to a mirage after turning , one the other one blame begins , both of them by themselves other everyone guilty to do falls . Some and , itself in the family couldn't get something other person's excess with as to give waits . However of relationships happy to be for happy without to him/her It is also necessary to pass . The most first of all , even , trivial problem Even if it comes out, it's mutual . talking to take It is necessary . Crack The place is getting better. growing up not leaving for each other in communication to be must . Today and this huge problem . Internet, sms and others' appearance to be with lively conversations own value is losing . Family each of the members person as certain spiritual to the world has they are between close relationships , communication as a result in the family to oneself typical family spirituality to the surface comes . Family in spirituality father and mother's spiritual qualities couple of relations oriental high humanity and morality level by designating gives . Family spirituality world each other respect , appreciation , cooperation , compromise , kindness , compassion , kindness , patience , humanity , nobility , respect for elders respect , like respect for the younger ones spiritual values in itself embodiment important . Such of values respect , to this action to be done in the family positive environment creates and divorces number sharp reduces .

## LITERATURE ANALYSIS AND METHODOLOGY

Family and marriage issues according to take visited research awards many to factors dependence In particular , ZM Karimova (2019) in her book “ Family psychology in his work family of the rulings the most important reasons as psychological suitable not coming and mutual of communication sluggishness record He is psychologically compatibility low level family to stability serious impact to do about writes SM Mamatkulova and children in education from the divorce next in cases to the surface coming problems analysis does . His I think they are divorced. in families children often himself finds guilty and this their to oneself was at the price negative impact shows . International research , in particular , the World health storage organization my divorce children spiritual to your health was the impact deep learned . To them according to the definition next in the period in children anxiety , depression , social divorce such as situations much many We are conducting our research Fergana province Kuva district 40 people in the Oraboshi MFY in families We conducted a total of 80 respondents. organization reached .

Research to the result according to : 18;15% divorce to families danger is putting no . Strong family build , difficulties overcome for all opportunities available . Simple disputes each other to relationships impact does not show . Such families solid we can call families .

-13;11% Relationships tension This family from representatives one marriage from a friend always satisfied It 's always difficult . in situations oneself catch doesn't know , caught can't . Such situations divorce for is dangerous . Such from cases distance , family your life some in cases boring even though it seems like you from it your satisfaction . each other in your relationship communication to culture attention Give to each other . care It is necessary to try to show .

-9.8% in families divorce situation to the surface from MYF staff this families study for the purpose interview from the method We used . To the result see this families 1-2 times reconciled families . Family duties distribution truth point from the point of view seeing exit , problems eliminate to grow necessary . In the family communication process to change attention give , husband and each wife himself/herself for vital dissatisfaction reason , marriage from a friend from life dissatisfaction the reasons , the possibilities having studied output necessary . To each other gentle , attentive , gentle , good intention with appeal do it yourself in turn to each other less reprimand to give . The couple each other with connecting , binding to the features more aspiration necessary .

## CONCLUSION

Family is the foundation of society. main social institute unfortunately , the last one in years family awards number increasing going this to the institute serious threat is putting in . Taking visited scientific analyses and there is literature comment this shows that the difference to the surface on arrival many psychological , social and economic factors There is a special relationship between misunderstanding , economic problems , mental pressures and external intervention of the rulings main from the reasons is considered . only couple between of relationships end not , maybe whole family system , especially children to psychology negative impact indicating is a factor . Divorced in families growing up children often spiritual depression , anxiety , social isolation , distrust such as to problems face This is coming . their person as full- fledged to develop obstacle does .

In the article learned literature and legislation analysis this shows that the difference process legal in the basics done increasing although , its prevent to take according to psychological and social measures strengthen necessary . In particular , from marriage before psychological preparation , family advice centers activity expansion , problematic to families social services show awards number in reduction important role plays .

Therefore , the divorce the problem only legal in a circle not , maybe complex approach based on – psychological , social and educational also solved in terms of to grow must . Through this not only families save to stay , maybe society stability to achieve the provision possible It will be .
